

# The Brainard Tribune.

SATURDAY, MARCH 11, 1892.

A. E. CHASE, Editor and Prop'r.

The Tribune will be sent free of charge to the United States Post Office, for TWO DOLLARS PER YEAR, Cash in Advance.

One Month, 75 Cts.  
Three Months, 2.00  
Six Months, 3.50  
One Year, 6.00

An engine was badly wrecked at Ogema, Wis., Thursday night.

A veteran member of the bar of Louisiana, Henry Kinnick, died recently.

Pro. Underwood of the Oregon Falls Journal has been wrestling with the mumps for the past few days.

The Iowa house defeated the bill forbidding the issue of railway passed, the vote being 65 to 31.

John J. Dwyer, who whipped Joe Elliott in a prize fight, is dying of consumption in a hospital in Brooklyn.

It has been stated by Gen. Washburn that his bill does not contemplate the sale of Indian lands in Dakota.

Jay Gould has leased the Grand opera house in New York to Henry E. Abbey, and Christine Nilsson is under contract to appear there at a date not far remote.

Let not the president be discouraged. Coning and Edmunds may decline, but a little persistence on the part of the executive is all that is needed to insure success.

Captain Nead, of the United States steamer Vandalia, reports that the Panama Canal company has cleared the route of trees and underbrush for a width of 300 yards.

The contestants in the recent big walking match met Thursday to settle up. Hazel was paid \$9,280 for gate money and \$9,000 for sweepstakes, and Fitzgerald walked away with \$4,750.

The Minneapolis Evening Journal perfunctorily remarks that "Minnesota can't swaze at the great Washington race, the Golden Trail. She has just a big bunch of snuff at home, but it's sliding towards the close of the last era."

Jesus James must have as many lives as a cat. He has been killed in the newspapers a score of times by reason of their being misinformed, and frequently by the too vivid imagination of the telegraph operator. It would seem that the Kansas sensation was one of the latter class.

It now looks decidedly as though there would be war between Russia and Austria. The latter has long boasted of her fine army, but unless Russia forces have become demoralized or deteriorated by her recent wars she would probably be able to cope successfully with Austria.

It seems as though the United States authorities were too lenient with the Indians and half-breed refugees on the frontier. The capture of Deputy United States Marshal Hearty and posse, while attempting to arrest the desperado, and the subsequent escape of the latter, and the fact that Milk river is an outrage which should not pass unnoticed. It is thought that the rescuers may arrive before the rescuers can arrive.

Sergeant Mason is likely to be court-martialed for insolent conduct toward two army surgeons sent to examine a wound received by him in the war of the rebellion. It is now claimed that he never was what might be called bright, and since his attempt upon the life of Guiteau and subsequent imprisonment, he has shown marked signs of idiocy, as is evidenced by his treatment of the surgeons sent in his behalf to examine him. His offense consisted of curses and oaths heaped upon his visitors.

It seems pretty certain that the Grant bill now before Congress will be defeated. Gen. Grant is reported as being poor, that he has no personal income and that the \$250,000 collected for him by Mr. Jones of the N. Y. Times, has nearly all been sunk in bad investments. The bonus given him in N. Y. was decided to Mr. Grant. We should be extremely sorry to see the brave soldier reduced to poverty, but it would seem that he ought to have looked out for what he had a little better.

# STATE SUITORS.

Wanted! Mechanics of all kinds, in the city from Mosley.

The Mosley Citizen says Mrs. H. H. Turcott, living near Washington Hill, was severely burned by her clothing catching the fire from a kettle of boiling pitch. Prompt actions on the part of her husband and a neighbor saved her life and the house from destruction.

It is proposed to have a conference of representative men of Shakopee, Chaska, Carver, Belle Plaine, Henderson, Le Sueur, St. Peter, and so on up to the head waters of the Minnesota, for the purpose of inaugurating a movement for locking and damming the river for the purpose of slack water navigation... [Grand Forks Phaladeler.

# GRAND FORKS.

Grand Forks is to have a fast train from St. Paul.

The mail service on the route between this city and Fargo is in a sadly deplorable state. Hardly a day passes but some complaint is made by citizens of the mismanagement or incompetency of the route agent. Yesterday there was no Fargo mail received at this city and presumably none at the intermediate points, owing to the fact that the mail agent with the Fargo ponches was left at that city. ....Herald, 9th.

# CRIMES AND CASUALTIES.

John Miller, of North Minneapolis, committed suicide by hanging in his barn Thursday morning. He was intoxicated at the time.

P. Power, of St. Paul, valued with furniture at \$30,000 was totally consumed by fire Wednesday night. The family had a narrow escape. There was \$25,000 insurance.

# USEFUL HINTS.

To Dry Hair Back.—Take stiffened hair, about an ounce, white lead, two ounces. Mix well together and keep dry. When required for use, mix a little powder and apply with a consistency of cream.

CHEAP PAINT.—Three hundred parts of washed and stoved white sand, forty parts of precipitated chalk, fifty parts of white lead, and ten parts of zinc oxide mixed and boiled in an iron kettle, and then one part of oxide of copper and iron. The mixture is to be used with a consistency of cream.

LANCER'S TIPS.—We copy from the *Cheminist and Druggist's Directory* for 1892, the following hints for making a diary paper as good as to him 1. Add to the ordinary paper a little honey or glycerine; 2, wash the surface of the ink with water; 3, wash the surface of the ink with water; 4, add a little ammonia; or, 5, add a little ammonia; 6, add a little ammonia; 7, The ink should be made up in a quantity of 20 drops to the ounce; 8, the ink should be made up in a quantity of 20 drops to the ounce.

To Remove Ink Blains.—The *Journal of Practical Medicine* recommends the following: "A mixture of vegetable fiber and yields colorless compounds, which, when applied to the ink blains, will remove the ink. It is to be used in a solution of pyro-sulphuric acid with both tallow and ink blains, and the ink will be removed by rubbing with a spot with strong alcohol acidulated with citric acid. Unless the stain is particularly difficult, paper is hardly subjected to the process; still it is always advisable to make a slight experiment first."

The *American* gives an engraving of a very cheap yet strong and comfortable chair which may be made as elegant as the one shown. The chair consists of a metal frame in which is a seat of wood. The chair consists of a metal frame in which is a seat of wood. The chair consists of a metal frame in which is a seat of wood.

And also WHOLESALE and RETAIL dealers in Lime, Cement and Plasterers' Hair. HOWE'S STANDARD SCALES. Orders Solicited, and Good Rates Assured. Office.—North side of Track, East of N. P. Freight House.
